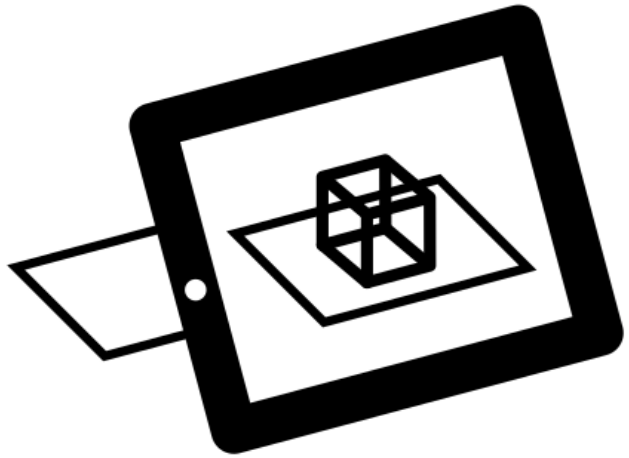
Augmented Reality (AR)

Augmented Reality is the integration of digital information with the user's environment in real time.
To make it simpler “**Augmented reality blurs the line between what’s real and what’s computer-generated.”**

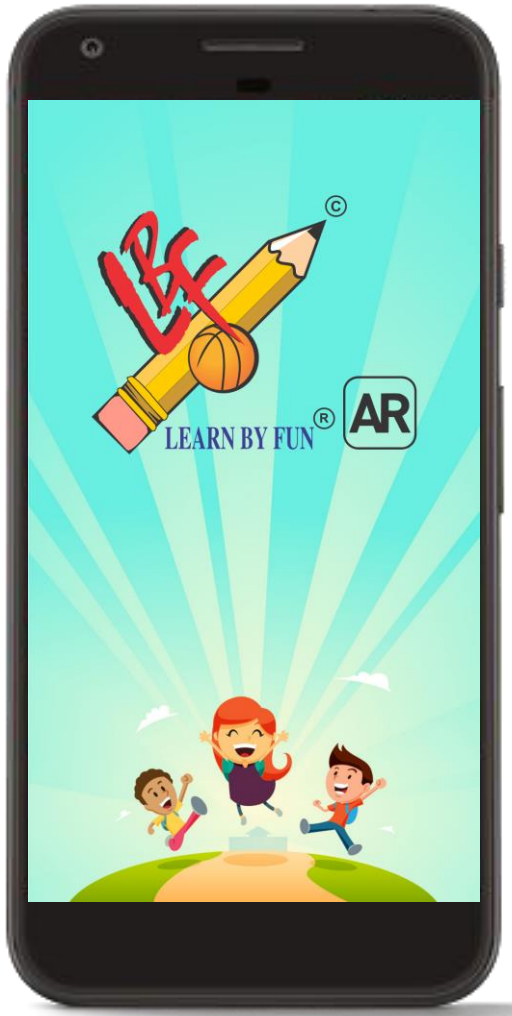


LBF AR Books and App

The LBF AR Books Advantages

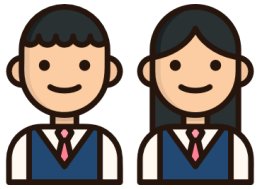
- Unique guidelines for every lesson
- Expected outcome from lesson to check the understanding of the students
- A step by step approach for better understanding & development
- Developed after an in-depth research of more than 10 years
- QR enabled page revision on mobile/tablets
- No need of regular internet connectivity. Just download once and use it for entire year.
- User friendly application

Education meets Technology, Digital Media meets Physical Books



Education meets Technology, Digital Media meets Physical Books

For Parents

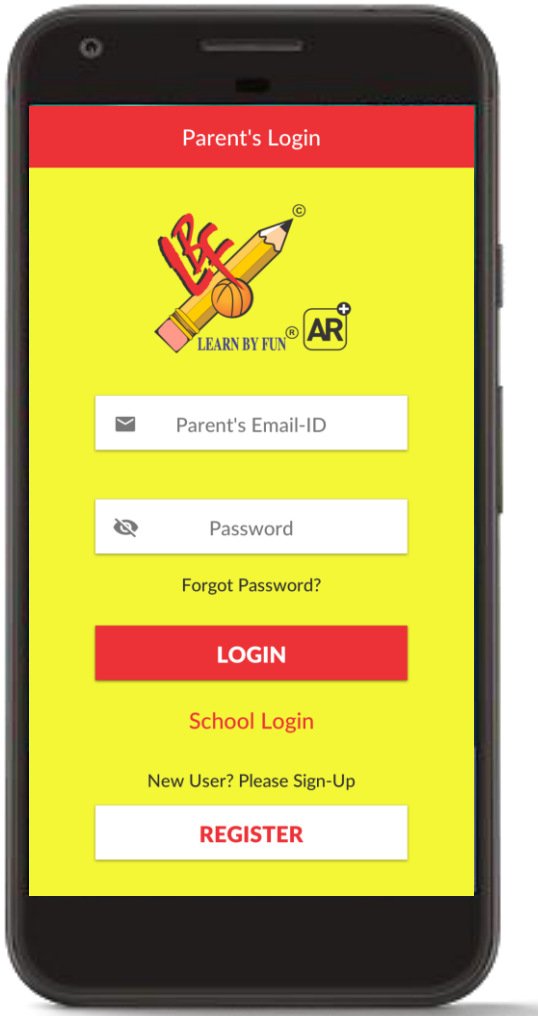


For Students

For Schools

For Teachers

Registration & Login for Parents and Schools



Step 1 : Register as a Parent. If you are a School, Click 'School Login' on the login page.
